SUMMARY

Over 2 years of professional experience consist of both failure and success. Encountered easy & tough problems throughout the journey and figured out how to get the work done by learning and studying. During this period I've solved numerous business issues using modern technologies such as Laravel, Vue, React and more.

SKILLS

Languages: PHP, JavaScript, HTML5, CSS3, Python(Basic)

Frontend: Vue.js, React.js, Next.js, Inertia.js, Tailwind CSS, Bootstrap

Backend: Laravel, MySQL, Django(Basic)

EXPERIENCES

HandyCash Home Credit Ltd.

January 2025 - Present

Web Developer

Made business operations handy by implementing many various crud modules. Solved pdf export problem for report generation. Migrated the company's frontend to Vue.js and Tailwind CSS, improving maintainability and modernizing the UI architecture.

Full-stack web developer

March 2024 - Present

Freelance

Collaborated with senior engineers to design and implement RESTful APIs in Next.js frontend. Solved backend issues for e-commerce platform. Built backend admin panel from scratch. Implemented audit trails and history tracking systems using MySQL triggers. Performed debugging, maintenance to enhance user experience.

PROJECTS

❖ VIVIPINS (Dynamic Page Builder Platform)

Developed complex page-builder system allowing administrators to create reusable content templates. Admins can create custom template for landing page, product page, category page with their preferred fields, repeaters and sort them. Implemented nested blocks, repeaters, dynamic field generation & drag-and-drop functionality.

❖ HANDYCASH DIGITAL LOAN (Multi-vendor CRM)

Solved frontend performance issue by shifting whole application to Vue.js and tailwind. Fixed automatic password mutation issue after user login. Reduced Customer Import time by fixing database operations. Continuously integrating new features to solve sluggish business operations & improve customer experience.

❖ TRUE FARMERS AGRO

Created modules for projects, crops details, spray scheduling, and crop yield management. Developed financial workflows for income, expenses. Created reporting features and payslip generation, and PDF downloads using DomPDF. Implemented role-based access control with users, roles, permissions, Laravel Gates, and project-specific authorization.

EDUCATION

Bachelor's Degree

National University • Dhaka, Bangladesh • September 2024
